

Suffolk County Launches New Drug Tip Hotline

As part of a redirected approach to fighting drug abuse in Suffolk County, a new tips hotline has been created for residents to report suspected drugs sales and drug activity in their neighborhoods. Residents are encouraged to call anonymously to 631-852-NARC to report information about drug dealers within their communities. That information will be vetted by a member of the Criminal Intelligence Unit and then dispersed to either Narcotics Unit detectives or precinct personnel depending on what information is reported.

24/7 Drug Help Hotline Lunched in Suffolk

On April 1st, the Suffolk County Department of Health Services in partnership with the Long Island Council on Alcoholism and Drug Dependence (“LICADD”) began operating a 24/7 substance abuse hotline to link callers to appropriate treatment. All callers are screened by a certified medical professional and referred to a local treatment provider. Additionally, follow-up is being done to ensure callers receive timely access to care.

If you or someone you know is dealing with a drug addiction please call (631) 979-1700 to find the resources and help you need to get clean.
